

FOUNDATIONAL AI SECURITY

7AI customers rely on AI agents that span security operations: enriching alerts, investigating threats, executing response, optimizing detection, and powering threat hunting. Proven in production at Fortune 500 scale, 7AI takes on the work that consumes analyst capacity so security teams can focus on the strategic work that makes them more secure.

PEOPLE-LED, AI-DRIVEN

AI agents are incredibly powerful. They investigate faster than any human analyst ever could. PLAID is 7AI's operating model where elite AI Security Engineers work alongside your team to customize, optimize, and continuously evolve your AI agents to match your environment, workflows, and business needs.

DELIVERY MODEL

PLAID

INCLUDED

AI Security Engineers assigned to every account to customize, optimize, and continuously improve your agents.

- Dedicated AI Security Engineer
- Onboarding & Guidance
- Program Leadership
- Expert Tuning
- Continuous Optimization

PLAID ELITE

OPTIONAL

Full outsourced SOC capabilities with 24x7 elite security coverage.

- Everything in PLAID
- 24x7 Elite Coverage
- Outsourced SOC Operations
- Incident Response
- Escalation Management

PROVEN IN PRODUCTION

Security leaders across industries are transforming their security operations with 7AI:

"Right off the bat we've seen an 80% reduction in tier 1 analyst time. As those tickets progressed through the funnel, we've seen easily a 95-99% reduction in the tickets that human beings have to look at. Incredible outcome.

We believe this is the world's largest, most successful AI SOC deployment."

MIKE BAKER
GLOBAL CISO

Blackstone

"7AI is helping us fundamentally reimagine how security operations function at scale.

Throughout our design partnership, we have been consistently impressed by the 7AI team's commitment to product innovation as well as their pace and quality of execution."

ADAM FLETCHER
CSO

Duck Creek
Technologies

"We believe the future of cybersecurity lies in leveraging AI to not only augment human capabilities but also to fundamentally reshape how security operations are conducted.

This is not just incremental improvement; it's a reinvention of how we protect our organization in an increasingly complex threat landscape."

BENJAMIN DULIEU
CISO & CIO

THE COMPANY

Founded in 2024 by Lior Div and Yonatan Striem-Amit, creators of Cybereason, 7AI is backed by \$166M in funding. The latest funding round represents the largest cybersecurity Series A in history just ten months after the company launched in February 2025.
